## 1.2 Upgrade prerequisite

The U8800 handset software should be updated with the MICRO SD card.

## 2 Upgrade preparation

### 2.1 Check current upgrade environment

SD card update: Make sure that the MICRO SD card is available and can be read and write.

### 2.2 Get and check the software package

Note:

1. There is 1 upgrade package.
  - 1) step 2\download\UPDATE.APP and step 2\download\UPDATE\_CUST.APP for upgrade whole handset software.

## 3 Upgrade operations

Notes:

- 1: Upgrade operations will erase the user data.
- 2: To make sure that the power of the battery is enough to run the upgrade process.(We recommend the battery is full.)

### 3.1 Main package upgrade

**step 1.** Prepare a formatted Micro SD card which at least has 512MB available space. Make a “dload” directory on SD card.

**step 2.** Copy the “step 2\download\ UPDATE.APP” and “step 2\download\ UPDATE\_CUST.APP” to SD Card “dload”;

**step 3.** Make sure your handset is powered off; insert the MICRO SD card into the handset. Press volume up and down key and then power key to upgrade.

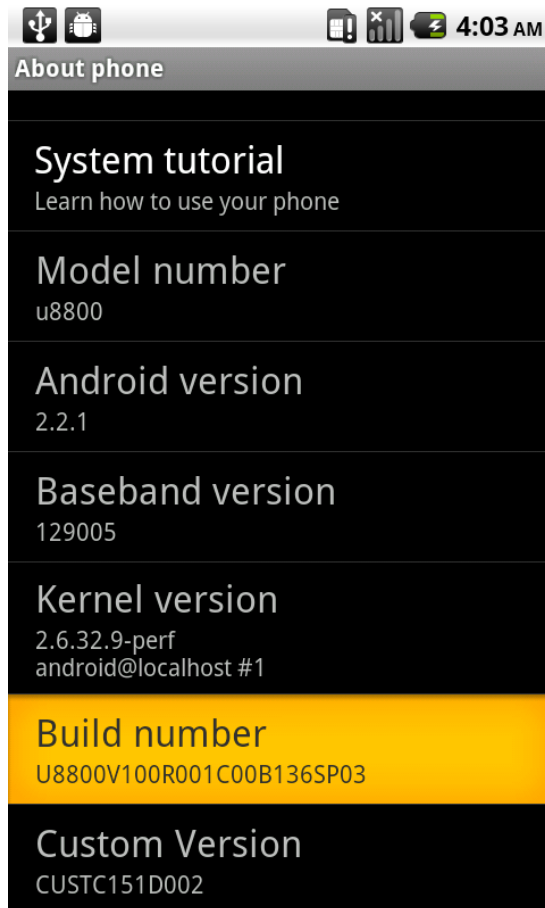

**step 4.**When “Upgrade Complete” appears on the screen, this stage of upgrading finished. Then pull out the battery and the SD card.

**step 5.**At last pull out the battery and USB cable (if connected) , and then insert the battery to reboot the handset , wait for a few minutes, then enjoy it!

## 4 Upgrade validate

### 4.1 Check the version

1. By Setting ->About phone, to check the version like the

U8800 V100R001C00B136SP03CUSTC151D002

### 4.2 Basic function check

Switch on the handset, enter the idle screen, input a dial number and make a voice call, then long press the power key to power off the handset.

## 5 Notes

To make sure that the power of the battery is enough to run the upgrade process. Maybe you can connect the handset with the charger or the USB data cable to provide power.
